Returnee's Report

Name	Masayuki Achiwa
Department	Computer Science
Grade	Third grade
NITECH Advisor	Prof. Koichi Wada
Exchange University	EFREI
Exchange University Advisor	Catherine Nusbaum
Country, City	France, Villejuif
Duration	2.26.2011 – 3.28.2011 (31 days)

Program Report

<Program Contents>
Studying about French and French culture.
Studying about UML (Class diagram, Sequence diagram,Network diagram).
Studying about how to write a charter ,and about Scope management , Time management.

<Achievements/Ambitions>
The most valuable thing I get on this training is getting conviction that　I can live in other country. I thought I can't live in other countries because of difference of lifestyle and culture. But I conceived those things are not important. And I could talk with other people in English ,contrary to my expect.
I hope make friends with various countries people and know and understand other cultures.

picture 1 :It's Shogayaki plate I ate in France. It is not bad to eat, but other foods my friends ate are very bad.

picture 2 :It is a picture we took in ramen shop with French people. We have toothpick in mouth.

picture 3 :It's a picture taken when we cruised on the Seine. The Eiffel Tower was very beautiful.
