Department	Computer science
Grade	B4
NITECH Advisor	Prof. Toramatu Shintani
Exchange University	EFREI
Exchange University Advisor	Catherine Nusbaum
Country, City	France, Villejuif
Duration	2.26.2011 – 3.28.2011 (31 days)

Program Report

<Program Contents>

  Program had 3 classes, French language, computer science and management. First, I learned French language for beginner. I learned how to introduce myself, learned about simple communication and learned word for example number, week and so on.

  Second, I learned about tools for modeling. Actually, I learned use case, Sequence Diagram and Class Diagram. I did presentation for how I used their tools in an example situation in last class.

  Last, I learned how to manage project. I learned about SCOPE, RISK, TIME, QUALITY, INTEGRATION management. And I did presentation for how I used their tools in an example situation that same we did in computer science

<Achievements/Ambitions>

  I think communication with foreigner is so big effort. I could enjoy communicating with EFREI's student in the situation that I couldn't communicate in Japanese. And I didn't run away. So I had a nice experience.
  My ambition is continuing speak English. We must speak English in present global society. I want speak English more, so I will learn English.

I joined AsianEFREI's event and I played go with French student.

We introduce our universaty NITECH to EFREI's student in International Fair.

We had a tour to Paris with French student. He is very kind and very funny, so we enjoyed Paris!
