

## Returnee's Report

Name	Jun Takahashi
Department	Computer Science
Grade	B3
NITECH Advisor	Associate Prof. Takayuki Ito
Exchange University	EFREI
Exchange University Advisor	Catherine Nusbaum
Country, City	France, Villejuif
Duration	2.26.2011 – 3.28.2011 (31 days)

### **Program Report**

#### <Program Contents>

I learned about basic French language, how to make UML figures in Project Management, and many kind of Project Management(for example, Scope Management, Risk Management, ...).

#### <Achievements/Ambitions>

I learned about basic French daily conversation. So I could sometime use those phrases during my stay. And because I also learned about French figures, I could listen to prices of products which clerk talked.

In Project, I used some UML Diagram(Use Case Diagram, Sequence Diagram, Class Diagram) which I learned. So, I could understand these UML Diagram.

And, I could practically use some kind of Management which I learned.

As ambition in the future, in order to study French continuously, I want to live for myself in France.

Also, I'm going to review these Managements and UML Diagram. In addition, I want to learn

about these things which aren't learned in French.
