Program Report

<Program Contents>

We studied basically word and conversation in French language instruction. In Project class, we studied the method and framework how to proposal and progress the project. In Computer Science class, we studied the method how to model standard (Use Case, Sequence Diagram, Class Diagram, etc.) And in Cultural Activity, We learned the history and culture of France, and visited the town or place related to those.

<Achievements/Ambitions>

I learned basically greeting in French and I can see the whole of project on account of I learned method and way to proposal and progress a project. Other outcomes are: I felt the history in France and visited old architectures, came in touch with France culture. As aspiration of the future, I want to go other countries if I catch the chance and want to know what is different between Japan or France and other countries, I try to improve my capabilities of English and French, And I want to make use of the knowledge I had learned about Project.
